Your Insurance Company and Our Office

What You Need to Know About Getting Your Healthcare Services Covered

Many of the services provided in this office are covered by your insurance company. We gladly file claims for you so that you do not have the additional worry and effort of dealing with this during a time of illness or pregnancy.

Unfortunately, not all services are covered by every insurance company. In cases where the service is not covered, you will be personally responsible for the balance. Before we bill you, we will make sure that all of the information sent to your insurance company is accurate, and clearly describes the services you received.

Your Financial Responsibility:

We will file your insurance claim, but you are ultimately responsible for paying for services received in our office. Please remember that insurance companies do not pay for all medical services. This includes many that are especially helpful to the patient.

When a service is not covered by your insurance policy, you will be responsible for paying the bill. We cannot change the information on an insurance claim simply so that the claim will be paid. If you are not sure whether a service is covered by your plan, we will be happy to call your insurance company in advance to see if you will likely be responsible. Non-covered services are your responsibility.

Insurance Filing and the Law:

Recent federal laws addressing all insurance companies require that we submit every claim accurately, reporting the exact services performed and the exact reason for performing them. We are unable to change this information simply for purposes of getting the claim covered. Our practice is committed to compliance with these laws, and will submit all claims in the appropriate manner.

Annual Examinations:

As a commitment to your health, we recommend that every patient have an annual examination, which allows us to evaluate your overall health and attempt to detect any unexpected complications or illnesses.

During this visit, we will update our records on all of your known conditions, as well as look for signs of any new problems. Unless there is a major finding during this annual examination, we must submit the service to your insurance company as an *annual examination*, which may not be paid by some carriers.

Along with the examination, your doctor may suggest that some “screening” tests be performed to allow him to get a better picture of your health. These services may also be considered “non-covered” by your insurance company. If so, you will be expected to cover the costs. Even if the results of these tests show a problem, we must submit these tests as “screening” to your insurance company, and cannot change this information simply to receive payment.
